ACC Retirement Plan, a Qualified 403(b)9 Plan
Plan 71280

Invest in your retirement—and yourself—today, with help from
the ACC Retirement Plan and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

It's a pleasure to let you know that you are eligible to enroll in the ACC Retirement Plan, a 403(b)9 Qualified Church Plan. Take a look and see what a difference the plan could make in achieving your goals.

Benefit from:

Retirement planning tools. You have access to online tools designed to help you manage your assets as you plan for retirement.

Tax-deferred savings opportunities. You pay no taxes on any pretax earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional catch-up contribution of \$7,500 in 2023.

Parsonage distributions in retirement. If you are a cantor (or were at the time contributions were made to the ACC Retirement Plan), and qualify for the tax exclusion, 100% of your withdrawals and/or annuity payments will be designated as eligible for the parsonage allowance exclusion from federal income tax once you become a retired member.

As a reminder, Parsonage Allowance eligibility is always subject to the IRS regulations. The amount you can exclude must be the lesser of the three: the amount of Parsonage Allowance that ACC designates annually for retired cantors (100%); amount you actually spend on your primary residence including mortgage, property taxes, insurance, utilities, etc.; Fair Rental value of the home, plus utilities.

Parsonage Allowance-eligible sources can be distributed separately from ineligible sources. If you have both ineligible sources, you can select distributions from one or the other.

Parsonage Allowance is a significant benefit for retired cantors and it's important that you and your tax advisor understand how to maximize that benefit in retirement. For example, it may make sense for you to take a distribution from your ACC account, even if you don't need it for expenses. On the other hand, taking a large distribution to pay off your mortgage may put you in a situation where you can't claim Parsonage Allowance on the entire amount, thereby subjecting you to avoidable taxes.

You lose the ability to claim the exclusion on distributions rolled out of the ACC Retirement Plan to an IRA or another retirement plan unless, like the ACC Retirement Plan, the new plan is administered by a religious organization that designates the contributions as Parsonage Allowance eligible.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time. Membership in the ACC or GTM is required.

How do I enroll in the Plan?

If you're ready to get started, enrolling is easy. First, obtain the Contribution Calculation Form from your ACC Retirement Plan Administrator, from the ACC Website at www.accantors.org, or from the back of this guide. Return the completed form to your ACC Plan Administrator:

ACC Retirement Plans
1375 Remington Road, Suite M
Schaumburg, IL 60173
Phone: 847-781-7800
Fax: 847-781-7801
Email: retirement@accantors.org
Website: www.accantors.org

Please be sure to retain copies for your records.

Remember, this form must be submitted to your ACC Plan Administrator before any contributions can be deducted from your pay.

Next, follow these steps:

1. Go to <http://enrollonline.fidelity.com> and follow the steps to set up your ACC Retirement Plan 403(b)9 account. The plan ID number is: 71280. You may also set up your ACC Supplemental Plan account at the same time by choosing "add another plan" and inserting the plan ID number 71280.

2. Set up a username and password to get online and telephone access to your account(s). If you are already a Fidelity

customer, you may continue to use your existing Password.

3. Log in to your account and click "Begin" found in the center of the screen. Follow the instructions to elect your investment options and beneficiaries online. Note: You must designate your investment elections; otherwise, your contributions will be allocated to the plan's default money market account.

If you need assistance with the enrollment process, you may call a Fidelity Retirement Representative at 1-800-343-0860.

How much can I contribute?

You may make a salary deferral contribution up to 100% of your eligible compensation. However, this contribution is subject to the maximum limits imposed by the IRS. Any amount contributed over the maximum limit will need to be invested in the ACC Supplemental Plan. The Internal Revenue Code provides that the combined annual limit for total plan contributions in 2023 is 100% of your W2 compensation or \$66,000, whichever is less.

What is the IRS contribution limit?

The IRS contribution limit for 2023 is \$22,500.

When is my enrollment effective?

Your enrollment becomes effective once you complete and return the Contribution Calculation Form to your ACC Plan Administrator and you successfully enroll online at <http://enrollonline.fidelity.com>. Salary deferral contributions can then begin after your synagogue obtains access to Fidelity's online employer system, Plan Sponsor

Webstation (PSW), and deducts your first salary deferral amount from your paycheck pretax.

Does the Employer contribute to my account?

Your congregation can make an annual discretionary contribution on your behalf. Plan guidelines suggest that this contribution be equal to at least 15% of your annual eligible compensation. The employer contributions will be contributed into your account along with any salary deferral contributions you decide to make. It is your responsibility to work with your congregation to ensure that the contributions are submitted directly to Fidelity Investments via Fidelity's Simplified Contribution Platform (SCP) online system in a timely manner.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. Fidelity's Online Beneficiaries Service, available through Fidelity NetBenefits®, offers a straightforward, convenient process that takes just minutes. Simply log on to NetBenefits® at www.netbenefits.com/atwork, click on the "Profile" link, select "Beneficiaries," and follow the online instructions. If you do not have access to the Internet or prefer to complete your beneficiary information by paper form, please call the Fidelity Retirement Benefits Line at 1-800-343-0860.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The 28 investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

What if I don't make an investment election?

We encourage you to take an active role in the ACC Retirement Plan and choose investment options that best suit your goals, time horizon, and risk tolerance.

If you do not select specific investment options in the Plan, your contributions will be invested in the Vanguard Treasury Money Market Fund Investor Shares, at the direction of American Conference of Cantors.

What catch-up contribution can I make?

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum plan or IRS contribution, you may make an additional catch-up contribution each pay period. The maximum annual catch-up contribution is \$7,500. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments.

When am I vested?

You are always 100% vested in any contributions you make and the annual employer contributions.

Can I take a loan from my account?

Although your plan account is intended for the future, you may borrow from your ACC Retirement Plan for any reason.

Learn more about and/or request a loan online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

Can I make withdrawals?

Withdrawals from the Plan are generally permitted at retirement age of 65, if you become permanently disabled or have severe financial hardship as defined by your Plan. Early retirement needs approval from the ACC Retirement Board of Trustees. Keep in mind that withdrawals are subject to income taxes and possibly to early withdrawal penalties. If your withdrawal is used for housing allowance, it may be tax free if the amount was previously recorded in the trustee meeting minutes.

Please call Fidelity Investments directly at 1-800-343-0860 to initiate distributions from your account and be sure to inform the representative if you are requesting a Parsonage Distribution.

Can I move money from another retirement plan into my ACC Retirement Plan?

If you wish to consolidate your account assets into your ACC Retirement Plan, please be sure to complete the Transfer/Rollover form at the back of this brochure and return it to Fidelity Investments. For any questions on completing the Transfer/Rollover form, please contact Fidelity at 1-800-343-0860 Monday through Friday from 8:00 am to midnight Eastern time.

You are permitted to roll over eligible pretax contributions from another 403(b) plan account or eligible pretax contributions from conduit individual retirement accounts (IRAs). A conduit IRA is one that contains only money rolled over from an employer-sponsored retirement plan that has not been mixed with regular IRA contributions.

Call the Fidelity Retirement Benefits Line at 1-800-343-0860 or log on to Fidelity NetBenefits® at www.netbenefits.com/atwork for details.

Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.

What are the annual administrative fees for this plan?

An annual plan administration fee of \$380 is charged to your account on a quarterly basis (\$95 each calendar quarter). This ACC plan administration fee of \$380 per year will be waived for new participants in their first two years of employment.

In addition, an annual fee of \$96 (\$24 per quarter) is charged for the recordkeeping services of Fidelity Investments.

You may reimburse your plan account for this fee by making a voluntary, after-tax

contribution to the plan. Please note, however, that this voluntary contribution will count toward the maximum aggregate annual contribution. Please refer to your Summary Plan Description for more information.

How do I update my mail preferences?

Receiving communication by e-mail offers you greater convenience and will help keep you up to date on topics related to your retirement plan. Log on to Fidelity NetBenefits® by going to www.netbenefits.com/atwork, and click "Profile" at the top right of the home page. This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 02/28/2023. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

In addition, it will invest at least 65% of its net assets in investment grade securities. The fund will generally seek to maintain an effective duration of +/- 2 years relative to the Bloomberg U.S. Aggregate Bond Index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

 - The Bloomberg U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.
 - Duration is a measure of a security's price sensitivity to changes in interest rates. Duration differs from maturity in that it considers a security's interest payments in addition to the amount of time until the security reaches maturity, and also takes into account certain maturity shortening features (e.g., demand features, interest rate resets, and call options) when applicable. Securities with longer durations generally tend to be more sensitive to interest rate changes than securities with shorter durations. A fund with a longer average duration generally can be expected to be more sensitive to interest rate changes than a fund with a shorter average duration.
